

Help us improve cancer care for everyone

Patients treated here will soon be asked to take part in NHS England's National Cancer Patient Experience Survey. The survey is part of the NHS Cancer Programme. It helps services monitor what's working well and what needs to be improved for future cancer patients.

All patients who have cancer related care or treatment as an inpatient or day case in April, May or June 2020 will be contacted to take part in the survey. Taking part is voluntary.

The survey will be carried out by an independent organisation working under contract to NHS England. They will use your personal details to contact you. They will only use your details to carry out the survey. These details will be provided by this NHS trust. Your personal information will be handled securely and confidentially. We will not publish any information which might identify you.

If you do not wish to take part, or have any questions about the survey, please contact:
