

CANCER SERVICES DIRECTORY

Introduction

The purpose of this directory is to provide contact details for cancer services personnel at Wirral University Teaching Hospital NHS Foundation Trust and has been produced to build on existing communication links between primary and secondary care.

Amongst the information included within this directory are contact details for the Multi-Disciplinary Team (MDT) personnel involved in the co-ordination and the delivery of cancer care at WUTH.

It is hoped that this will be an invaluable resource for you to use in identifying key people within the organisation and enhance dialogue between all health professionals

Inevitably teams change and directory details become inaccurate hence the directory will be subject to review and update of contents.

Cancer Support Services

Macmillan Cancer Information and Support

Based on the ground floor at Arrowe Park Hospital

- Provides a free confidential drop in service for anyone affected by cancer.
- Offers one to one practical and emotional support to patients, families, carers and staff.
- Provides general literature and information about all cancer types and is a useful resource for people who are looking to reduce the risks of developing cancer, anyone with a diagnosis, those who are living with the consequences of treatment and people who are living with and beyond cancer.
- Offers information and support over the phone and by email for those not able to access the service in person.
- The centre has links to other national, local and voluntary support and advice services and can signpost to other services as required

Open Monday to Friday 10am to 4pm (excluding Bank Holidays). Please ring before making a special journey. Appointments can be made outside these hours.
