

Date: 9th April 2026

NIHR North West Regional Research Delivery Network Research Roadshow

Colleagues are invited to attend the NIHR North West Regional Research Delivery Network Research Roadshow, taking place online on Wednesday 29th April from 9am to 1pm.

This free event is open to anyone working in health or social care across the North West, whether you are new to research, curious about getting involved or already supporting, delivering or leading research in your role.

Hosted by Janette Dunkerley, NIHR North West Regional Research Delivery Network Health and Care Director for Nursing, Midwifery and Allied Health Professions, the event will also feature Professor Ruth Endacott, NIHR Director for Nursing and Midwifery, alongside colleagues from across the region.

The session will provide an opportunity to showcase research across the North West, highlight key priorities and create space for discussion around both local and national challenges.

Colleagues can expect national updates, examples of research in practice, inspiring stories from across the region and a live question and answer session.

If you are interested in research or want to learn more, this is a great opportunity to get involved.

If you are unable to attend on the day, a recording will be shared afterwards.
