

**Date: 30<sup>th</sup> April 2026**

### **Return of unused bleeps and IT equipment**

All colleagues are reminded that any unused bleeps (pagers) should be returned to the Switchboard team as soon as possible.

There is an urgent need to recover and reallocate these devices to support clinical teams across the Trust.

In addition, any unused IT equipment should be returned to the Digital Healthcare Team (DHT) Hub at Arrowe Park Hospital. This helps ensure equipment is available for colleagues who need it and supports the efficient use of resources.

If you are unable to return equipment in person, please contact the DHT team to arrange collection.

Your prompt action and cooperation are greatly appreciated.
